

# The Committee for Special Education of Lower Merion School District

---

*The Committee for Special Education (CSE) is a parent-led volunteer organization serving families of students with an IEP, GIEP, and/or 504 Service Agreement.*

**Join us for our  
upcoming program**

## **An Introduction to Your Child's Brain**

Ever wonder how your child's brain functions and develops? Matthew Newell, Founder and Director of The Family Hope Center, will address the root causes of a child's neurological challenges, including the pathways to brain development.

If your child has cerebral palsy, ADHD, ADD, Autism, Asperger Syndrome, Down Syndrome, epilepsy, dyslexia, or developmental delays, this event is not to be missed. For educators and professionals working in special education, this is an ideal opportunity to hear how The Family Hope Center is helping children improve, and how to better support the children you teach. Following the presentation, there will be opportunities for a Q&A with the speaker.

**Matthew Newell** has traveled and lectured internationally in all phases of development and brain neuroplasticity. Certified in Child Brain Development, Newell has helped and taught more than 15,000 parents over the last 30 years. He has personally designed and developed mobility programs for thousands of children, teaching their parents how to take them through each step of functional mobility. Newell as leading expertise in respiration, Mild Hyperbaric Therapy, cranial sacral therapy, myofascial release, and other modalities to support the development of children and adults.
